

REVITALIZE THE LIFE OF YOUR ROOFING INVESTMENT WITH DURO-SHIELD® ROOF COATINGS

Maximum Return on Your Investment

Duro-Shield roof coatings provide the ideal blend of durability and versatility for all of your roof maintenance needs. Our high-performance coatings are engineered to offer both short-term repair solutions and long-term maintenance benefits, ensuring the longevity and reliability of your roof.

Stop Chasing Leaks with Comprehensive Protection

Duro-Shield roof coatings are specially designed to address the most common roofing problems without the need for a full roof replacement, including:

- Ponding Water: Our coatings effectively manage ponding water, preventing potential damage and extending the lifespan of your roof.
- Cracks and Leaks: Waterproof your roof by sealing existing cracks and leaks, eliminating ongoing water intrusion issues.
- Weather Resistance: Our coatings provide a durable barrier against harsh weather conditions, safeguarding your building year-round.

More Than PVC

Duro-Shield roof coatings seamlessly adhere to a variety of roofing systems, providing a versatile and adaptable solution for any commercial roofing system. Compatible substrates include PVC, TPO, EPDM, Hypalon® CSPE, spray-applied polyurethane foam, mineral and granule-surfaced BUR, smooth-surfaced BUR, metal, concrete, wood and more.
