

BE READY FOR ANY STORM

WITH DURO-SHIELD® ROOF COATINGS

Storm damage can strike at any time, leaving buildings vulnerable to leaks and structural damage. Duro-Shield roof coatings are designed to provide rapid, reliable solutions for both emergency and comprehensive repairs, ensuring building owners are protected no matter the weather.

Immediate Protection with Duro-Shield Reinforced Roof Repair

Duro-Shield Reinforced Roof Repair is your ultimate ally in emergency situations. This innovative product can be applied in wet conditions, allowing you to quickly address roof damage and keep interiors dry while long-term needs are assessed.

DAMP SURFACES: Can be applied to damp surfaces*.

**Standing water should first be removed.*

NO PRIMER NEEDED:** Reducing labor and eliminating the cost of additional products.

***Over most substrates.*

COMPLETE REPAIR SOLUTION: Stand-alone UV-stable silicone sealant. Does not contain asphalts or acrylics and is resistant to chalking, cracking, becoming brittle or breaking down over time.

For comprehensive repair needs after a storm, Duro-Shield offers superior products to ensure lasting protection and durability.

Duro-Shield Silicone Roof Coating

Ideal for addressing common storm repair needs including hail damage and punctures, this coating offers exceptional resistance to the elements and provides a robust barrier against future storms.

- Hail Damage Repair: Specifically designed to address and repair hail impacts.
- Durability: High-performance coating that stands up to harsh weather.
- Flexibility: Maintains integrity and flexibility under extreme conditions.

Duro-Shield Acrylic Roof Coating

A versatile and reliable choice for storm damage repair, this coating provides excellent adhesion and weatherproofing for roofs with $\geq 2:12$ slope.

- Versatile Application: Suitable for a variety of sloped substrates.
- Weatherproofing: Superior protection against precipitation and UV damage.
- Cost-Effective: A budget-friendly solution without compromising quality.
