Give Your Great Roof the Leading Edge

Metal Edge and Drainage Components
Even the “World’s Best Roof®” will only perform as well as its edge details, drainage system and other metal components. In fact, nearly three-quarters of all leaks originate not in the roof itself, but in these critical details.

High-quality metal products designed for Duro-Last® Roofing Systems offer you unsurpassed protection, durability and environmental efficiency – and are backed by industry-leading warranties and code compliance. Visit [exceptionalmetals.com](http://exceptionalmetals.com) for a complete listing of products that are ANSI/SPRI ES-1 and FM approved.
Details Make the Difference

The right details can make a huge difference in how a roof looks — and how it performs. EXCEPTIONAL® Metals, a division of Duro-Last, Inc., designs and manufactures high-quality metal edge details, drainage systems, scuppers, collector boxes, pitch pans and other custom-fabricated products.

While they will work with any single-ply roof, these products are designed to complement Duro-Last Roofing Systems. Many are made with vinyl-coated metal, so authorized Duro-Last contractors can provide a secure, water-tight bond between the edge detail and Duro-Last membrane.

The superior design of our components, and their compatibility with Duro-Last Roofing Systems, offer you state-of-the-art protection against the elements.
Details Matter

1. Parapet Wall Vent
2. Arched Coping
3. Snap Coping
4. 2-Piece Compression
5. DX-Style Gutter System
6. Metal Flange Scupper
7. Collector Box with Downspout & Assembly
8. 2-Piece Flex Compression
9. ATR Hub
10. Standing Seam
11. All-Term™
The Duro-Last Roofing System includes details custom-designed and manufactured by EXCEPTIONAL® Metals. Our full line offers a variety of options — so you can finish and complement every roof design while effectively channeling the water off the rooftop.

Metal Roof and Wall Panel Systems

Your design isn’t right for a single-ply membrane roof? We can still help. Duro-Last and EXCEPTIONAL Metals also offer a full line of metal roof and wall panel systems. To learn more, contact us at 1-800-248-0280 or at exceptionalmetals.com/roof.
Edge Details

High-quality metal edge details from EXCEPTIONAL Metals create durable, reliable terminations and transitions with Duro-Last and other single-ply membrane roofing systems. They are available in a variety of stock finishes, which are usually shipped within five business days, as well as in custom finishes and designs.

Our edge details include:
- Universal 2-Piece Snap-On Compression Edge
- High-Profile® Fascia
- Snap-On Fascia Base
- Gravel Stop Covers
- Fascia Covers
- Edge Extenders
- T-Edge
- Vinyl-Coated Drip Edge
- All-Term™

Contact us to see how you can get same day or express shipping on some of our most popular details and colors.
Coping

Our various coping systems provide a complete finish and enhance draining from any parapet wall, including flat, canted, snap and arched coping. We also have the capability to produce custom copings that meet your specific design needs.
Gutters

Duro-Last X-Series Gutters by EXCEPTIONAL Metals come in four box-style profiles and a variety of sizes to accommodate virtually any drainage need.

Downspouts are available in a variety of sizes with a traditional closed face or an open face, which prevents blockages from ice and debris.
Conductors and Scuppers

Conductor boxes and scuppers are precisely crafted to exact specifications, offering you through-wall drainage in a package that enhances the aesthetics of your design.

Our products include:
- Collector Boxes
- Single and Double Skirt Scuppers
- Metal Flange Scuppers
- Conductors
Custom Capabilities

You have an idea. We can bring it to life. Duro-Last’s EXCEPTIONAL Metals division has the custom design and fabrication capability to create nearly any edge metal, drainage or trim design concept — and make sure it works perfectly with your roofing system.

Some of our custom fabrications have included:

- Arched Drip Edge
- Wall and Ridge Vents
- Vinyl-Coated Hubs and Pitch Pans
- Custom Conductor

What’s your idea?
Contact us at 1-800-248-0280 or exceptionalmetals.com to discuss your custom needs.
Duro-Last offers a range of standard colors.

Duro-Last’s standard colors are 70% PVDF Kynar® 500/Hylar® 5000 Trinar produced by AkzoNobel. They are formulated to ensure consistent color and quality on either Galvalume® HD galvanized or aluminum substrates.

We also offer a mill-finished Galvalume with a two-sided, clear chromate/acrylic finish. It eliminates handprints and stains from handling and storage. The acrylic finish dissolves over time, allowing for natural and even weathering.

Environmental Performance

Duro-Last edge metal products contain recycled materials and are recyclable at the end of their useful life. They use infra-red reflective pigments and meet EPA ENERGY STAR® Roof Products Program performance criteria for steep slope roofing applications.

Let’s get started!

How can Duro-Last and EXCEPTIONAL Metals help you create a roofing system that is functional and beautiful? Contact us at 1-800-248-0280 or visit exceptionalmetals.com.
