1 Identification

· Product identifier
· Trade name: Millennium PG-1 Low Viscosity Insulation Adhesive Part 1
· Article number: 520677-1
· Relevant identified uses of the substance or mixture. Adhesive
· Application of the substance / the mixture Adhesive

· Details of the supplier of the safety data sheet
· Manufacturer/Supplier:
  Royal Adhesives & Sealants, LLC
  17340 Munn Road
  Chagrin Falls, OH 44023
  Information Phone Number: 517-764-0334
· Information department: Environment protection department.
· Emergency telephone number:
  ChemTrec: Day or Night within USA and Canada: 1-800-424-9300.
  Outside USA and Canada: +1 703-527-3887 (collect calls accepted)

2 Hazard(s) identification

· Classification of the substance or mixture

  GHS08 Health hazard

  Resp. Sens. 1 H334 May cause allergy or asthma symptoms or breathing difficulties if inhaled.
  STOT RE 2 H373 May cause damage to organs through prolonged or repeated exposure.

  GHS07

  Acute Tox. 4 H332 Harmful if inhaled.
  Skin Irrit. 2 H315 Causes skin irritation.
  Eye Irrit. 2A H319 Causes serious eye irritation.
  Skin Sens. 1 H317 May cause an allergic skin reaction.
  STOT SE 3 H335 May cause respiratory irritation.

· Label elements
· GHS label elements The product is classified and labeled according to the Globally Harmonized System (GHS).
· Hazard pictograms

  GHS07  GHS08

· Signal word Danger
· Hazard statements
  Harmful if inhaled.
Trade name: Millennium PG-1 Low Viscosity Insulation Adhesive Part 1

Causes skin irritation.
Causes serious eye irritation.
May cause allergy or asthma symptoms or breathing difficulties if inhaled.
May cause an allergic skin reaction.
May cause respiratory irritation.
May cause damage to organs through prolonged or repeated exposure.

· Precautionary statements
Do not breathe dust/fume/gas/mist/vapors/spray.
[In case of inadequate ventilation] wear respiratory protection.
Wear protective gloves.
Wear eye protection / face protection.
Wash thoroughly after handling.
Use only outdoors or in a well-ventilated area.
Contaminated work clothing must not be allowed out of the workplace.
If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
Specific treatment (see on this label).
If experiencing respiratory symptoms: Call a POISON CENTER/doctor.
IF INHALED: Remove person to fresh air and keep comfortable for breathing.
Call a POISON CENTER/doctor if you feel unwell.
Wash contaminated clothing before reuse.
If skin irritation or rash occurs: Get medical advice/attention.
If eye irritation persists: Get medical advice/attention.
Get medical advice/attention if you feel unwell.
IF ON SKIN: Wash with plenty of water.
Take off contaminated clothing and wash it before reuse.
Store locked up.
Store in a well-ventilated place. Keep container tightly closed.
Dispose of contents/container in accordance with local/regional/national/international regulations.

· Classification system:
· NFPA ratings (scale 0 - 4)

Health = 2
Fire = 1
Reactivity = 1

· HMIS-ratings (scale 0 - 4)

HEALTH 2
FIRE 1
PHYSICAL HAZARD 1

Health = 2
Fire = 1
Physical Hazard = 1

· Other hazards
· Results of PBT and vPvB assessment
· PBT: Not applicable.
· vPvB: Not applicable.

3 Composition/information on ingredients

· Chemical characterization: Mixtures
· Description: Aromatic Isocyanates
· Hazardous components:

| 9016-87-9 | diphenylmethanediisocyanate, isomers and homologues | 50-100% |
**Trade name:** Millennium PG-1 Low Viscosity Insulation Adhesive Part 1

<table>
<thead>
<tr>
<th>101-68-8</th>

**Additional information:**
All concentrations are in percent by weight unless the ingredient is a gas. Gas concentrations are in percent by volume. Any pigments or fillers in this product which may be considered "Hazardous" are potentially hazardous only if inhaled as an airborne dust. Exposure by these ingredients as used in sealants, putties, bedding compounds and non-sprayable products is highly unlikely. For the wording of the listed risk phrases refer to section 15.

### 4 First-aid measures

#### Description of first aid measures

#### General information:
Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

#### After inhalation:
Supply fresh air and be sure call for a doctor.  
In case of unconsciousness place patient stably in side position for transportation.  
Call a doctor immediately.  
Overexposure, remove to fresh air and seek medical attention.

#### After skin contact:
If skin becomes irritated seek medical attention.  
Immediately wash with water and soap and rinse thoroughly.

#### After eye contact:
Rinse opened eye for 20 minutes under running water. Call a Doctor immediately.  
Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

#### After swallowing:
Rinse out mouth with water. Drink 1 - 2 glasses of water but DO NOT induce vomiting. Do not give liquids to a drowsy, convulsing or unconscious person. If vomiting occurs spontaneously, keep head below hips to prevent aspiration.  
Seek medical treatment.

#### Information for doctor:
Most important symptoms and effects, both acute and delayed No further relevant information available.

Indication of any immediate medical attention and special treatment needed
No further relevant information available.

### 5 Fire-fighting measures

#### Extinguishing media

#### Suitable extinguishing agents:
CO2, extinguishing powder or water spray. Fight larger fires with water spray.

Use fire fighting measures that suit the environment.

#### For safety reasons unsuitable extinguishing agents:
Do not use direct water stream.

#### Special hazards arising from the substance or mixture
No further relevant information available.

#### Advice for firefighters

#### Protective equipment:
Mouth respiratory protective device.  
Protective clothing and respiratory protective device.
6 Accidental release measures

- Personal precautions, protective equipment and emergency procedures: Keep away from ignition sources.
- Environmental precautions: Do not allow to enter sewers/surface or ground water.
- Methods and material for containment and cleaning up:
  Cover spilled material with neutralization solution (see below) and mix. Wait 15 minutes. Collect material in open-head metal containers. Repeat neutralization and cleaning process until surface is decontaminated. Apply drum lid but DO NOT secure. Allow containers to vent for 72 hours to let carbon dioxide escape. Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose of contaminated material as waste in accordance with federal state and local regulations.
  Ensure adequate ventilation.
- Reference to other sections
  Neutralization solutions:
  1. A mixture of 90% water, 3-8% ammonium hydroxide or concentrated ammonia, and 2% liquid detergent.
  2. A mixture of 80% water, 20% non-ionic surfactant.
  Apply solution. Wait 15 minutes. Collect in open-head container. Re-apply until surface is decontaminated. Apply drum lid but DO NOT secure. Let containers vent for 72 hours allowing carbon dioxide to escape. Secure drum lid.
  See Section 7 for information on safe handling.
  See Section 8 for information on personal protection equipment.
  See Section 13 for disposal information.

7 Handling and storage

- Handling:
- Precautions for safe handling
  Avoid prolonged or repeated contact with skin.
  Avoid contact with eyes.
  Wash thoroughly after handling.
  Prevent formation of aerosols.
- Information about protection against explosions and fires:
  Product reacts with water. Reaction may produce heat and/or gases. Container may rupture from gas generation in a fire situation. This reaction may be violent.
- Conditions for safe storage, including any incompatibilities
- Storage:
  - Requirements to be met by storerooms and receptacles:
    Keep containers tightly closed when not in use. Protect from atmospheric moisture.
  - Information about storage in one common storage facility: Keep away from open flames and high temperatures.
  - Further information about storage conditions:
    Storage Temperature - 32F - 90F.
    Keep receptacle tightly sealed.
  - Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

- Additional information about design of technical systems: No further data.
- Control parameters
  - Components with limit values that require monitoring at the workplace:
    The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit.
At this time, the remaining constituent has no known exposure limits.

### 101-68-8, 4,4’-methylenebisphenyl diphenyl disocyanate

<table>
<thead>
<tr>

</tbody>
</table>

### Additional information:

MDI products have poor warning properties, since recognition of an odor is far above the TLV. Observe OSHA regulations for respirator use (29 CFR 1910.134).

The lists that were valid during the creation were used as basis.

### Exposure controls

- **Personal protective equipment (see listings below)**
- **General protective and hygienic measures:**
  - Keep away from foodstuffs, beverages and feed.
  - Immediately remove all soiled and contaminated clothing.
  - Wash hands before breaks and at the end of work.
  - Avoid contact with the eyes and skin.

### Breathing equipment:

Use approved respiratory protection equipment when airborne exposure is excessive. Consult the respirator manufacturer to determine the appropriate type of equipment for a given application. Observe respirator use limitations specified by the manufacturer.

### Protection of hands:

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

- **Material of gloves**
  - Chloroprene rubber, CR
  - Nitrile rubber, NBR
  - Butyl rubber, BR
  - The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

- **Penetration time of glove material**
  - The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

### Eye protection:

- **Face Shield**
  - Safety glasses with side shields.

### Body protection:

- **Apron**
9 Physical and chemical properties

- Information on basic physical and chemical properties
  - General Information
  - Appearance:
    - Form: Liquid
    - Color: Dark Amber
  - Odor: Characteristic
  - Odor threshold: Not determined.
- pH-value: Not determined.
- Change in condition
  - Melting point: Undetermined.
  - Boiling point: 200 °C (392 °F)
- Flash point: 220 °C (428 °F)
- Flammability (solid, gaseous): Not applicable.
- Ignition temperature: 400 °C (752 °F)
- Decomposition temperature: Not determined.
- Auto igniting: >482F
- Danger of explosion: Product does not present an explosion hazard.
- Flammable limits:
  - Lower: 0.4 Vol %
  - Upper: % by volume = 6.7
- Vapor pressure: 0 mm Hg
- Specific gravity at 20 °C (68 °F): 1.22 g/cm³ (10.181 lbs/gal)
- Relative density: Not determined.
- Vapor density: Not determined.
- Evaporation rate: Not determined.
- Solubility in / Miscibility with Water: Not miscible or difficult to mix.
- Partition coefficient (n-octanol/water): Not determined.
- Viscosity:
  - Dynamic at 20 °C (68 °F): 200 mPas
  - Kinematic: Not determined.
- Solvent content:
  - Organic solvents: 0.0 %
- Other information: No further relevant information available.

10 Stability and reactivity

- Reactivity: No further relevant information available.
Trade name: Millennium PG-I Low Viscosity Insulation Adhesive Part 1

- **Chemical stability**
- **Thermal decomposition / conditions to be avoided:**
  Contact with moisture, other materials that react with isocyanates, or temperatures above 350F (177C), may cause polymerization.
- **Possibility of hazardous reactions**
  Violent reaction with water at high temperatures.
  May produce violent reactions with bases and numerous organic substances including alcohols and amines.
  MDI reacts slowly with water to form Carbon Dioxide gas. This gas can cause sealed containers to expand and possibly rupture. Contact with moisture, other materials that react with isocyanates, or temperatures above 350F, may cause polymerization.
- **Conditions to avoid**
  Exposure to high temperatures.
  Moisture
- **Incompatible materials:**
  Reacts with amines, caustic alkali solutions, alcohols, ammonia, oxidizers, acids, polyols.
  Reacts with water forming carbon dioxide—may rupture sealed containers if contaminated with water.
- **Hazardous decomposition products:**
  Carbon dioxide, carbon monoxide, oxides of nitrogen, dense black smoke, hydrogen cyanide, isocyanic acid, other undetermined compounds.

### II Toxicological information

- **Information on toxicological effects**
- **Acute toxicity:**
- **LD/LC50 values that are relevant for classification:**

<table>
<thead>
<tr>
<th>Compound</th>
<th>Oral LD50</th>

<tbody>
<tr>
<td>101-68-8 4,4'-methylene diphenyl diisocyanate</td>
<td>2200 mg/kg (mouse)</td>
</tr>
</tbody>
</table>

- **Primary irritant effect:**
  - **on the skin:**
    Skin irritant.
    Irritant to skin and mucous membranes.
  - **on the eye:** Irritating effect.
- **Sensitization:**
  Inhalation - Sensitization possible through inhalation.
  Skin Contact - Sensitization possible through skin contact.
- **Additional toxicological information:**
  The product shows the following dangers according to internally approved calculation methods for preparations:
  Harmful
  Irritant

- **Carcinogenic categories**

<table>

- **NTP (National Toxicology Program)**
  None of the ingredients is listed.
12 Ecological information

· **Toxicity**
  - Aquatic toxicity: No further relevant information available.
  - Persistence and degradability: No further relevant information available.
  - Behavior in environmental systems:
  - Bioaccumulative potential: No further relevant information available.
  - Mobility in soil: No further relevant information available.
  - Additional ecological information:
  - General notes:
    At present there are no ecotoxicological assessments.
    Water hazard class 1 (Self-assessment): slightly hazardous for water
    Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.
  - Results of PBT and vPvB assessment
    - PBT: Not applicable.
    - vPvB: Not applicable.
  - Other adverse effects: No further relevant information available.

13 Disposal considerations

· **Waste treatment methods**
  - Recommendation:
    Must not be disposed of together with household garbage. Do not allow product to reach sewage system.
    Must be specially treated adhering to official regulations.
    Disposal must be made according to official regulations.

· **Uncleaned packagings:**
  - Recommendation: Disposal must be made according to official regulations.

14 Transport information

· **UN-Number**
  - DOT, ADN, IMDG, IATA: not regulated

· **UN proper shipping name**
  - DOT, ADN, IMDG, IATA: not regulated

· **Transport hazard class(es)**
  - DOT, ADN, IMDG, IATA: not regulated

· **Packing group**
  - DOT, IMDG, IATA: not regulated

· **Environmental hazards:**
  - Not applicable.

· **Special precautions for user**
  - Not applicable.
15 Regulatory information

- Safety, health and environmental regulations/legislation specific for the substance or mixture

- Sara

- Section 355 (extremely hazardous substances):
  None of the ingredients is listed.

- Section 313 (Specific toxic chemical listings):
  9016-87-9 diphenylmethanediisocyanate, isomers and homologues
  101-68-8 4,4'-methylenediphenyl diisocyanate

- TSCA (Toxic Substances Control Act):
  All components of this product are on the TSCA Inventory or are exempt from TSCA Inventory requirements.

- Proposition 65

- Chemicals known to cause cancer:
  None of the ingredients is listed.

- Chemicals known to cause reproductive toxicity for females:
  None of the ingredients is listed.

- Chemicals known to cause reproductive toxicity for males:
  None of the ingredients is listed.

- Chemicals known to cause developmental toxicity:
  None of the ingredients is listed.

- (DSL) Canada Domestic Substance List
  All components of this product are on the DSL(Canada Domestic Substance list) or are exempt from DSL requirements.

- New Jersey Right-to-Know List:
  9016-87-9 diphenylmethanediisocyanate, isomers and homologues
  101-68-8 4,4'-methylenediphenyl diisocyanate

- New Jersey Special Hazardous Substance List:
  None of the ingredients is listed.

- Pennsylvania Right-to-Know List:
  101-68-8 4,4'-methylenediphenyl diisocyanate

- Pennsylvania Special Hazardous Substance List:
  101-68-8 4,4'-methylenediphenyl diisocyanate

</table>

- Additional information:
  All concentrations are in percent by weight unless the ingredient is a gas. Gas concentrations are in percent by volume. Any pigments or fillers in this product which may be considered “Hazardous” are potentially hazardous only if inhaled as an airborne dust. Exposure by these ingredients as used in sealants, putties, bedding compounds and non-sprayable products is highly unlikely. For the wording of the listed risk phrases refer to section 15.

* 4 First-aid measures

- Description of first aid measures
- General information:
  Immediately remove any clothing soiled by the product.
  In case of irregular breathing or respiratory arrest provide artificial respiration.
- After inhalation:
  Supply fresh air or oxygen; call for doctor.
  In case of unconsciousness place patient stably in side position for transportation.
- After skin contact: Immediately wash with water and soap and rinse thoroughly.

(Contd. on page 3)
Trade name: Millennium PG-1 Low Viscosity Insulation Adhesive Part 2

(Contd. of page 2)

· After eye contact:
  Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.
· After swallowing: Do not induce vomiting; immediately call for medical help.
· Information for doctor:
  · Most important symptoms and effects, both acute and delayed: No further relevant information available.
  · Indication of any immediate medical attention and special treatment needed: No further relevant information available.

5 Fire-fighting measures

· Extinguishing media
  · Suitable extinguishing agents:
    CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
    Use fire fighting measures that suit the environment.

· Special hazards arising from the substance or mixture: No further relevant information available.
· Advice for firefighters
  · Protective equipment: Mouth respiratory protective device.

6 Accidental release measures

· Personal precautions, protective equipment and emergency procedures
  Wear protective equipment. Keep unprotected persons away.
  Ensure adequate ventilation.
· Environmental precautions:
  Do not allow product to reach sewage system or any water course.
  Inform respective authorities in case of seepage into water course or sewage system.
  Do not allow to enter sewers/surface or ground water.
· Methods and material for containment and cleaning up:
  Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
  Dispose of contaminated material as waste in accordance with federal state and local regulations.
  Ensure adequate ventilation.
· Reference to other sections
  See Section 7 for information on safe handling.
  See Section 8 for information on personal protection equipment.
  See Section 13 for disposal information.

7 Handling and storage

· Handling:
  · Precautions for safe handling
    Open and handle receptacle with care.
    Ensure good ventilation/exhaustion at the workplace.
    Prevent formation of aerosols.
  · Information about protection against explosions and fires: No special measures required.
· Conditions for safe storage, including any incompatibilities
· Storage:
  · Requirements to be met by storerooms and receptacles: No special requirements.
  · Information about storage in one common storage facility: Store away from oxidizing agents.
  · Further information about storage conditions: Keep receptacle tightly sealed.

(Contd. on page 4)
Trade name: Millennium PG-1 Low Viscosity Insulation Adhesive Part 2

Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

Additional information about design of technical systems: No further data; see item 7.

Control parameters

Components with limit values that require monitoring at the workplace:
The following constituent is the only constituent of the product which has a PEL, TLV or other recommended exposure limit.
At this time, the remaining constituent has no known exposure limits.

556-67-2 octamethylcyclotetrasiloxane

WEEL Long-term value: 10* ppm
*OARS WEEL

Additional information: The lists that were valid during the creation were used as basis.

Exposure controls

Personal protective equipment (see listings below)

General protective and hygienic measures:
Keep away from foodstuffs, beverages and feed.
Immediately remove all soiled and contaminated clothing.
Wash hands before breaks and at the end of work.
Store protective clothing separately.
Avoid contact with the eyes and skin.

Breathing equipment:
Use approved respiratory protection equipment when airborne exposure is excessive. Consult the respirator manufacturer to determine the appropriate type of equipment for a given application. Observe respirator use limitations specified by the manufacturer.

Protection of hands:

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.
Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.
Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

Material of gloves
Nitrile rubber, NBR
Chloroprene rubber, CR
The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Penetration time of glove material
The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

Eye protection: Safety glasses with side shields.

Body protection: Protective work clothing
### 9 Physical and chemical properties

- **Information on basic physical and chemical properties**
- **General Information**
- **Appearance:**
  - **Form:** Liquid
  - **Color:** Clear
- **Odor:** Mild
- **Odor threshold:** Not determined.
- **pH-value:** Not determined.
- **Change in condition**
  - **Melting point:** Undetermined.
  - **Boiling point:** Not Determined
  - **Flash point:** Not applicable.
- **Flammability (solid, gaseous):** Not applicable.
- **Ignition temperature:**
  - **Decomposition temperature:** Not determined.
  - **Auto igniting:** Product is not selfigniting.
  - **Danger of explosion:** Product does not present an explosion hazard.
  - **Reacts with oxidising agents**
- **Flammable limits:**
  - **Lower:** % by volume = .9
  - **Upper:** % by volume = 6.7
- **Vapor pressure:** Not determined.
- **Specific gravity at 20 °C (68 °F):** 1 g/cm³ (8.345 lbs/gal)
- **Relative density**
  - Not determined.
- **Vapor density**
  - Not determined.
- **Evaporation rate**
  - Not determined.
- **Solubility in / Miscibility with**
  - **Water:** Not miscible or difficult to mix.
- **Partition coefficient (n-octanol/water):** Not determined.
- **Viscosity:**
  - **Dynamic:** Not determined.
  - **Kinematic:** Not determined.
- **Solvent content:**
  - **Organic solvents:** 0.0 %
  - **Water:** Not available
  - **VOC (Per EPA 24):** Not available GMS/L
- **Solids content:**
  - Not available
- **Other information**
  - No further relevant information available.

### 10 Stability and reactivity

- **Reactivity** Stable under recommended storage conditions.
**Safety Data Sheet**

acc. to OSHA HCS

**Trade name:** Millennium PG-1 Low Viscosity Insulation Adhesive Part 2

### Chemical stability
- **Thermal decomposition / conditions to be avoided:** No decomposition if used according to specifications.
- **Possibility of hazardous reactions** Reacts with oxidizing agents.
- **Conditions to avoid**
  - Heat, flames, sparks.
  - Moisture
- **Incompatible materials:** Reacts with oxidizing agents.
- **Hazardous decomposition products:**
  - Carbon monoxide and carbon dioxide
  - Tin oxide

### Toxicological information

#### Information on toxicological effects
- **Acute toxicity:**
  - **Primary irritant effect:**
    - on the skin: Irritant to skin and mucous membranes.
    - on the eye: Irritating effect.
  - **Sensitization:** Based on available data, the classification criteria are not met.

#### Carcinogenic categories
- **IARC (International Agency for Research on Cancer)**
  - None of the ingredients is listed.
- **NTP (National Toxicology Program)**
  - None of the ingredients is listed.
- **OSHA-Ca (Occupational Safety & Health Administration)**
  - None of the ingredients is listed.

### Ecological information

- **Toxicity**
- **Aquatic toxicity:** No further relevant information available.
- **Persistence and degradability** No further relevant information available.
- **Behavior in environmental systems:**
- **Bioaccumulative potential** No further relevant information available.
- **Mobility in soil** No further relevant information available.
- **Additional ecological information:**
- **General notes:**
  - Water hazard class 2 (Self-assessment): hazardous for water
  - Do not allow product to reach ground water, water course or sewage system.
  - Danger to drinking water if even small quantities leak into the ground.
- **Results of PBT and vPvB assessment**
- **PBT:** Not applicable.
- **vPvB:** Not applicable.
- **Other adverse effects** No further relevant information available.
13 Disposal considerations

- Waste treatment methods
  - Recommendation:
    Must not be disposed of together with household garbage. Do not allow product to reach sewage system.
    Must be specially treated adhering to official regulations.
    Disposal must be made according to official regulations.

- Uncleaned packagings:
  - Recommendation: Disposal must be made according to official regulations.

14 Transport information

- UN-Number
  - DOT: not regulated
  - ADN, IMDG, IATA: Not Regulated

- UN proper shipping name
  - DOT: not regulated
  - ADN, IMDG, IATA: Not Regulated

- Transport hazard class(es)
  - DOT
    - Class: not regulated
    - ADN/R Class: Not Regulated

- Packing group
  - DOT: not regulated
  - IMDG, IATA: Not Regulated

- Environmental hazards:
  - Not applicable.

- Special precautions for user
  - Not applicable.

- Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code
  - Not applicable.

- UN "Model Regulation":
  - not regulated

15 Regulatory information

- Safety, health and environmental regulations/legislation specific for the substance or mixture
  - Sara
    - Section 355 (extremely hazardous substances):
      None of the ingredients is listed.
    - Section 313 (Specific toxic chemical listings):
      None of the ingredients is listed.

- TSCA (Toxic Substances Control Act):
  - All components of this product are on the TSCA Inventory or are exempt from TSCA Inventory requirements.

- Proposition 65
  - Chemicals known to cause cancer:
    None of the ingredients is listed.
Trade name: Millennium PG-1 Low Viscosity Insulation Adhesive Part 2

- Chemicals known to cause reproductive toxicity for females:
  None of the ingredients is listed.

- Chemicals known to cause reproductive toxicity for males:
  None of the ingredients is listed.

- Chemicals known to cause developmental toxicity:
  None of the ingredients is listed.

  (DSL) Canada Domestic Substance List
  All components of this product are on the DSL(Canada Domestic Substance list) or are exempt from DSL requirements.

- New Jersey Right-to-Know List:
  None of the ingredients is listed.

- New Jersey Special Hazardous Substance List:
  None of the ingredients is listed.

- Pennsylvania Right-to-Know List:
  None of the ingredients is listed.

- Pennsylvania Special Hazardous Substance List:
  None of the ingredients is listed.

- Cancerogenity categories
  - EPA (Environmental Protection Agency)
    None of the ingredients is listed.
  - TLV (Threshold Limit Value established by ACGIH)
    None of the ingredients listed.
  - MAK (German Maximum Workplace Concentration)
    None of the ingredients is listed.
  - NIOSH-Ca (National Institute for Occupational Safety and Health)
    None of the ingredients is listed.

- National regulations:
  - Water hazard class: Water hazard class 2 (Self-assessment): hazardous for water.
  - Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

16 Other information

Although the information and recommendations set forth in this SDS are presented in good faith and are believed to be correct as of the date of this SDS, Royal Adhesives & Sealants makes no representations as to the completeness or accuracy thereof. Information is supplied on the condition that the persons receiving and using it will make their own determination as to the suitability for their purpose prior to use. In no event will Royal Adhesives & Sealants or any affiliate thereof be responsible for damages of any nature whatsoever resulting from the use or reliance on the information set forth in the SDS.

- Department issuing SDS: Environment protection department.
- Creation Date: 07/11/2014
- Date of preparation / last revision 11/10/2016 / 5
- Abbreviations and acronyms:
  IMDG: International Maritime Code for Dangerous Goods
  DOT: US Department of Transportation
  IATA: International Air Transport Association
  ACGIH: American Conference of Governmental Industrial Hygienists
  EINECS: European Inventory of Existing Commercial Chemical Substances
Trade name: Millennium PG-1 Low Viscosity Insulation Adhesive Part 2

ELINCS: European List of Notified Chemical Substances
CAS: Chemical Abstracts Service (division of the American Chemical Society)
NFPA: National Fire Protection Association (USA)
HMIS: Hazardous Materials Identification System (USA)
PBT: Persistent, Bioaccumulative and Toxic
vPvB: very Persistent and very Bioaccumulative
NIOSH: National Institute for Occupational Safety
OSHA: Occupational Safety & Health
TLV: Threshold Limit Value
PEL: Permissible Exposure Limit
REL: Recommended Exposure Limit
Acute Tox. 4: Acute toxicity – Category 4
Skin Irrit. 2: Skin corrosion/irritation – Category 2
Eye Irrit. 2A: Serious eye damage/eye irritation – Category 2A
